Preface

SPROUT - My Wonderful World

A child's first discoveries begin with looking closely, asking questions and sharing everyday experiences. SPROUT - My Wonderful World invites children to explore the world through clear pictures, conversation and playful activities.

Familiar themes help children connect new words and ideas with their own lives. The pictures invite them to notice details, describe what they see and make simple comparisons. Activities offer opportunities to match, circle, draw, colour and respond.

Parents and teachers can make each page a shared conversation. Name the objects together, ask a short question and give children time to answer. Encourage them to point, speak and try again in their own way. Short, enjoyable sessions help build confidence.

We hope this book becomes a cheerful companion in a child's daily discoveries, encouraging curiosity, careful observation and the pleasure of learning something new.
